

AccuVlinder

Eco600 Li Battery power trowel ø 60cm

Meet the world's most stable Battery power trowel machine!

Super stable floor finishing due to the extremely low construction and center of gravity, due to the sophisticated position of the battery. This popular model has a low weight of 52 kg. (without battery).

With a minimum height of 53cm, this edging machine fits perfectly under common window sills. This is in contrast to the competition. This battery-powered trowel machine, developed and produced in Staphorst, puts an end to many problems!

5-fold problem solver!

1. No emissions
2. No carbon monoxide problems for your employees
3. No odor problems
4. No noise pollution for local residents and employees
5. No fuel costs

- Super stable floor finishing due to the extremely low construction and center of gravity
- Speed infinitely adjustable
- Battery quick change system
- Invented and made in Staphorst, expertise since 2018

Delivery:

- The Eco600 is supplied ready for use with 2 batteries, 1 charger, finishing sheets and sanding disc

Additional choices:

- Available in 24V and 48V
- LED-lighting

Specifications

Brand	AccuVlinder
Engine type	24V E engine
Engine power	1.2 kW
Battery	24V
Blade speed	0-150 rpm
Diameter	60 cm
Weight	52 kg (without battery)
Battery system	Lithium-Ion 24V DC
Charging time	2.5 - 3 hours
Battery weight	11 kg
