

AccuVlinder

Eco900 Li Battery power trowel ø 90 cm

A powerful machine with many satisfied users at home and abroad!

5-fold problem solver!

1. No emissions
2. No carbon monoxide problems for your employees
3. No odor problems
4. No noise pollution for local residents and employees
5. No fuel costs

- Completely emission-free work, no emissions and CO2 reduction on the construction site!
- Low-noise working, hardly any nuisance to local residents in the evenings.
- No cables and cords on the fresh concrete floor
- Up to 2 hours of work on 1x battery charge

Our machines are always supplied with 2 batteries.
The batteries can be replaced easily and quickly so that work can continue continuously.

With this battery-powered trowel machine you are ready for the future!

Delivery:

- The Eco900 is supplied ready for use with 2 batteries, 1 charger, finishing sheets and sanding disc
